

Our Community Billboards

What's Going On in Your Town?

Community Billboards provide Local Information, Events, Activities, Entertainment, and Dining Specials for towns and small cities.

Local Business Directory clients located in Massachusetts and northern Rhode Island will also get their Profile Link spotlighted in Billboards for those communities that fall into their market package.

Profile links will be placed and rotated randomly.

Community Billboards are available nationwide and will be expanded in those cases where we can secure local representation.

Community Billboards are promoted independently via our 'Everything Local' campaign, which is conducted both on-line and off-line.

Since their inception seven months ago, Community Billboards are close to delivering as many visitors to the site as our traditional Local Business Directory promotion.
